I remember going everywhere with Terry and Dale when I was young. I remember spending time with Becky and Beth, too! Dale took Doug and I to the release of the first Star Wars movie back in the day....thus starting this geek on the path to Sci-Fi fanaticism. He got me hooked on Dr. Who with Tom Baker (still one of my favorite doctors). I remember when he almost had to walk down the aisle with Terry in a cast after an accident at work; how he and Terry slid around trying to protect that dang cast from the rain during the summer. It was still funny how he would steal Mandy's nose, even though she's all grown up. Tim is so much like Dale - that quiet goofball! I have so many happy memories....much love
