“ So sorry Bev & John I did not know. I was going to send a happy birthday greeting yesterday, but I had this strange feeling, so I googled it this morning to see the sad news. We were close friends in High School with many great memories and have kept in touch for all these years. A wonderful person and my life was better for knowing him and his family. God bless, I'll miss you ole buddy!

“ When I first started working at Beecher School District, I was part-time in the high school guidance office. Dave taught me many computer program skills and I enjoyed working with him. My condolences to the family. You are in my prayers.

“ Our family, as a group, is saddened by the news of David's passing. When the kids were young Jamie and John were very close and before they left Michigan we shared many happy family times together. Our sadness is offset by the knowledge he is free of pain and with the Lord. We send our love, Fred, Char and all the kids.
